

Welcome to issue 39 of *Performance Audi Magazine*. This month, we were invited over to Kettering for Audi's 2018 Range Review – where the company's entire line-up of cars is put out for the press to admire and get behind the wheel of. You can see which models really took our fancy over on page 82.

Of course, there's also plenty of fantastic Audi feature cars to whet your appetite, too. Not least our cover star – photographer Jape Tiitinen's awe-inspiring B3 90 Quattro that boasts a custom 2.2 20v five-cylinder engine swap and is now good for over 500bhp. Check it out over on page 52.

Elsewhere, there's an 8J TTS from Scotland boasting blistering Stage 3 tuning upgrades alongside a TTE420 turbocharger that puts together a strong case for the perfect fast all-rounder (page 28), an 8L S3 project from owner Stephen Florio which he transported all the way from Colorado back to his home in New York (page 44), as well as Darkside Developments' big-turbo 8J TT TDI which has all the grunt to back up its tasty race car livery.

Hope you enjoy the issue.
